40	8/9	42
42	10	44
44	11/12	46
46	13	48

********It is important to note that Brazilian shoe sizing is a bit smaller as compared to U.S shoe sizing. Keeping this in mind, if your U.S. shoe size tends to fall in the $\frac{1}{2}$ size range, PUFF recommends to go up to the next larger full size. When in doubt, always opt for the next larger size. ********
